

ALPHA

Soft lines
and technology in harmony

Ideal Standard

Soft lines and technology in harmony

To create a modern and practical bathroom, start with Alpha. The collection offers a wide selection of bathroom and kitchen fittings with a variety of applications and functions. The main quality of these mixers is the soft organic shapes combined with modern technologies that guarantee easy installation, durability, water and energy savings. Here you will find one-hole or exposed basin mixers, shower mixers, one-hole or exposed shower mixers combined with shower accessories, bidet mixer, built-in mixers, as well as various models of kitchen mixers. The fittings are perfectly combined with the ceramic products from the Alpha collection.

Smart shine finish

Easy-fix installation

Comfort
73 mm height between the tap and the basin for a pleasant use

Hot water temperature control

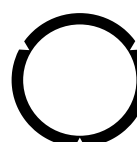

Click technology

BlueStart® technology

Click Clack pop-up waste

Singular
from Ideal Standard

Practicality and comfort

The ceramic products in the Alpha collection feature pure lines for easy hygiene maintenance. Rimless technology provides an even higher level of toilet bowl hygiene by making the entire interior space in the bowl accessible and preventing splashing. The collection has been developed in breadth, offering the four most applicable sizes of sinks, hand basins and countertop basin, as well as WC sets, floor standing and wall mounted WC bowls and bidets. The ceramic products are perfectly combined with the Alpha mixers, offering an affordable solution for the entire bathroom.

Rimless
technology

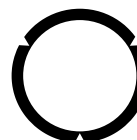

Water saving

Easy to clean

Soft close
seat & cover

Singular
from Ideal Standard

RimLS

**Engineered
for hygiene.**

Innovative technology that delivers easy cleaning:

- Easy to clean, the absence of rim allows easy access to most of the bowl inner surface;
- Fast to clean product resulting in time saving when it comes to maintenance;
- Top ledge preventing over splashing.

BlueStart®

**Engineered
for energy savings.**

This unique technology saves water, energy and therefore money. Its function is to deliver only cold water when the handle is in the central position. This smart technology ensures that the mindless heating of water is avoided when using a standard mixer, where mixed water is delivered in the central position of the handle.

Fittings

Technical specifications

Basin mixer without pop-up waste

Model	Ref. No.
Basin mixer without pop-up waste	BC552AA

- 35 mm ceramic cartridge with hot water limiter
- Click technology
